

# Governor Elect Scott Walker needs your help one last time before the Inauguration in January, see the message below:

Subject: Choo-Choo Train

Hi guys,

Walker's office needs our people to burn down his phones today with calls demanding he keep his campaign promise and kill the "high speed rail" project.

The pro-train folks have mobilized to harass his office with call in support of the train.

He needs our folks on record with calls in support of HIM and keeping his promises.

Can I ask you to help by sending out emails to the grassroots asking them to call:

**608-261-9200** and register in favor of Scott keeping his campaign promise?

I checked with Cullen at the office, so they're ready for the phones to burn down.

Can you please help?

THANKS!!!

Vicki McKenna
